ABOUT ME

Highly motivated and detail-oriented Software Engineer with expertise in Python programming, web development, and project management. Strong foundation in software development practices, with a proven ability to design and implement scalable solutions. Skilled in communication, collaboration, and creativity, with a focus on delivering efficient, maintainable software. Adept at applying critical thinking to solve complex problems and contribute to innovative projects. Passionate about working in cross-functional teams, staying up to date with emerging technologies, and driving results through effective software development practices.

MINI-PROJECT

FRI-DAY Virtual Assistant

Developed FRI-DAY, an interactive virtual assistant designed to assist users with daily tasks such as checking the weather, sending messages, making calls, and opening apps. The project focused on creating a conversational interface that understands user commands and responds in a user-friendly manner. The goal was to provide an intuitive and helpful virtual companion capable of streamlining routine activities, enhancing productivity, and improving user experience through seamless interaction.

COURSES AND CERTIFICATION

- Database and SQL
- 100 Days of Code: The Complete Python Pro Bootcamp
- Deep Dive into Python Libraries with Application Projects
